Subject: Rosemont Copper

To: EPA Administrators,
I am writing to you to express my support of Rosemont Copper's effort to begin mining copper at their southern Arizona location.

I am a resident of Tucson and a retired chemist. I have studied Rosemont's design and followed this project for several years. During my career, I consulted at several copper mining and refining facilities and I believe strongly that Rosemont's design goes far beyond the manner in which the copper mining industry has operated in the past and will be leading edge in protecting the environment at their facility.

I am a strong supporter of EPA and applaud your work to protect our environment. I urge you to permit Rosemont to see final approval granted.

Thank you!

James G. Periale
